

GWC Debugging Challenge

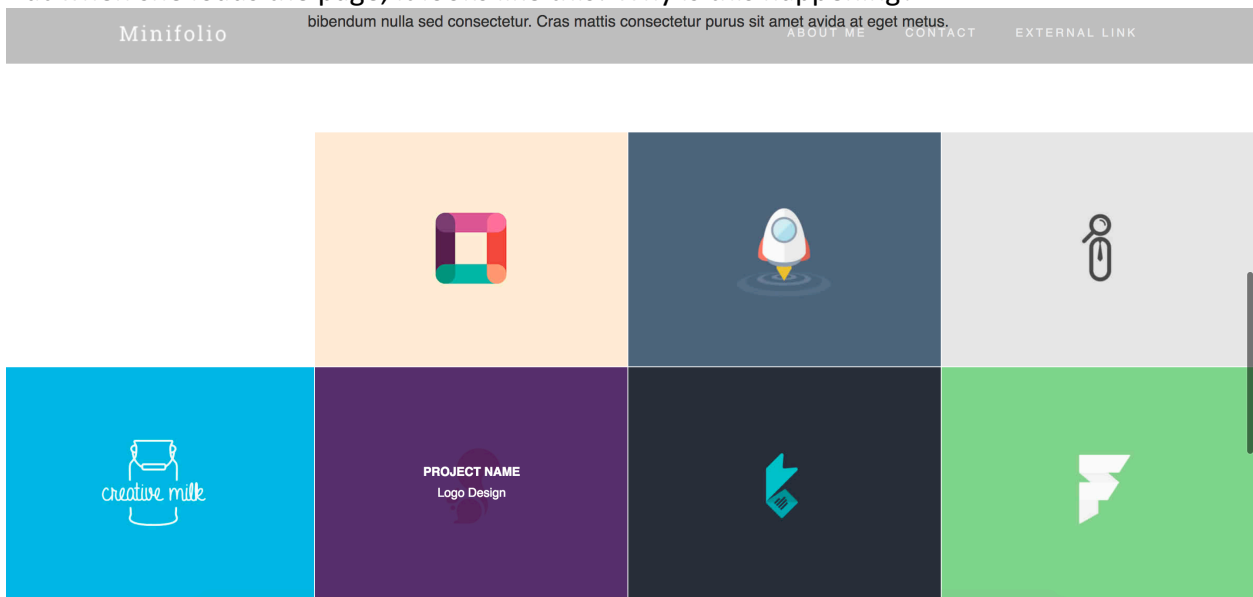

Alice is new to HTML, and she has made a few mistakes while creating her website. Can you please help Alice fix her code?

Bug 1:

Alice tried to replace the first picture on the page with a picture of a kitten.

But when she loads the page, it looks like this! Why is this happening?

Bug 2:

Alice's favorite color is pink, so she wants the background at the top of the page that is purple to be pink. She picked out the perfect shade, and even changed the background color to be pink in the html, but the page still is purple! Please help Alice make her page pink.

Here is a snapshot of Alice's code to help you:

```
background-color: #f442e2;  
color: #fff;  
font-size: 13px;  
font-weight: 600;  
letter-spacing: 5px;  
border: 0;  
-moz-border-radius: 2px;  
-webkit-border-radius: 2px;  
border-radius: 2px;  
display: inline-block;  
text-transform: uppercase;
```

Bug 3:

What is this giant space in this paragraph? Alice doesn't remember putting that space there, she wants it to be one big paragraph. What is going wrong?

Donec sed odio dui. Nulla vitae elit libero, a pharetra augue. Nullam id dolor id nibh ultricies vehicula ut id elit.

Integer posuere erat a ante venenatis dapibus posuere velit aliquet.

Giant space!

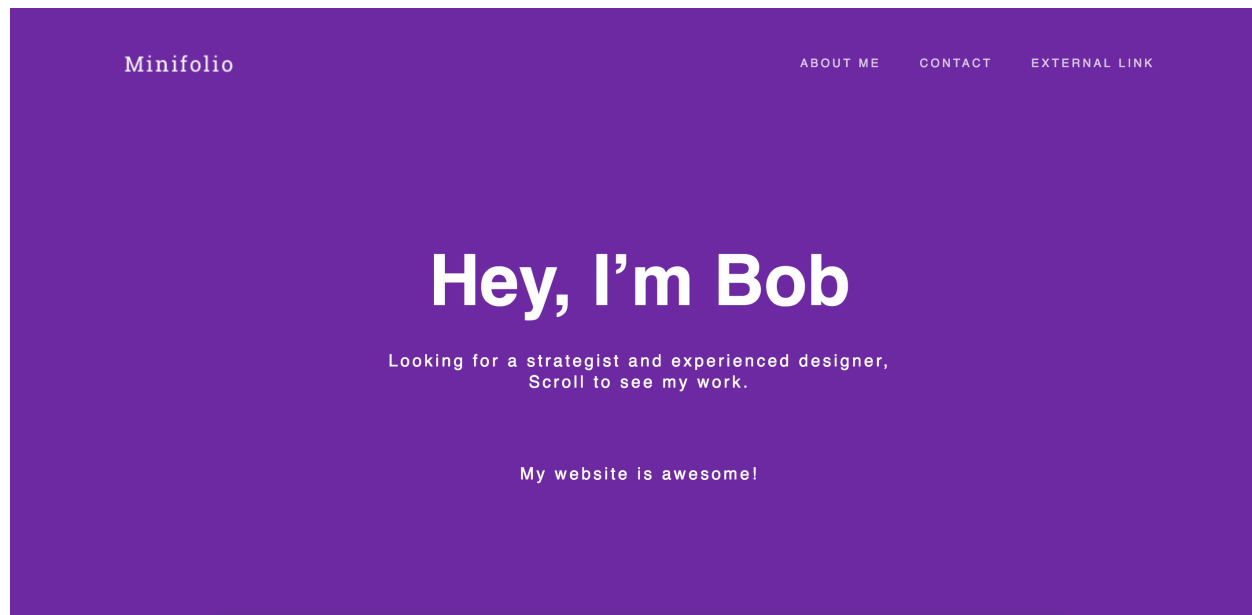

Duis mollis, est non commodo luctus, nisi erat porttitor ligula, eget lacinia odio sem nec elit. Aenean lacinia

bibendum nulla sed consectetur. Cras mattis consectetur purus sit amet avida at eget metus.

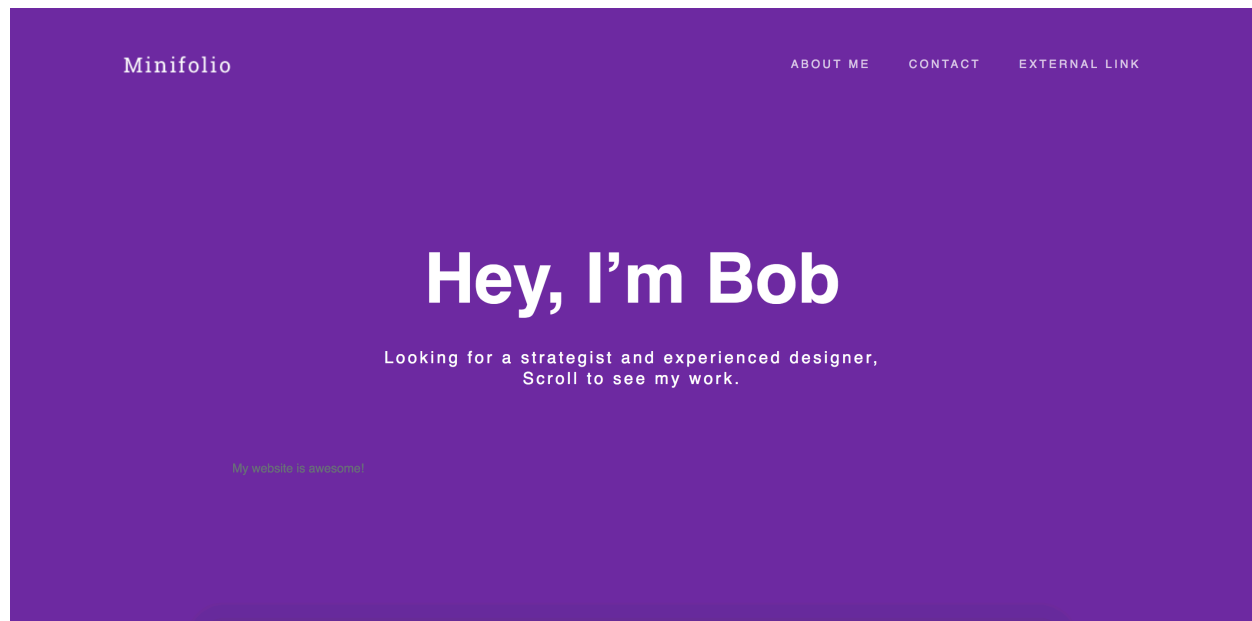

Challenge bugs!!!

Bug 4: Look at what happens when you press on the "about" tab at the top of the screen. Now press the "contact" tab at the top of the screen. That doesn't seem right! Can you fix it?

Bug 5: You want to add another sentence to the paragraph in your banner. You want it to look like this:

But for some reason it looks like this:

Can you make it look like the first screen?

Thank you for helping Alice 😊
